SELECTED EXPLANATIONS AND DEFINITIONS

FATCA

FATCA is short for "Foreign Account Tax Compliance Act".

This is a US law intended to identify US taxpayers who hold a financial account or financial product with a financial institution outside the USA.

CRS

CRS is short for "Common Reporting Standard", which is a set of rules issued by the OECD that define how participating countries exchange information about financial accounts with foreign jurisdictions.

CRS participating country

A CRS participating country is a country, which has implemented CRS and has signed an international agreement with the country where the financial account is held, meaning the country where the financial institution is resident.

Account holder

The account holder is considered to be the natural/legal person, who is registered or identified as the owner of a financial account/product.

Tax Identification Number - (TIN)

TIN is short for "Tax Identification Number" - it is a taxpayer identification number.

Not all countries issue tax identification numbers, but they have other types of numbers used for the purpose of tax identification.
